The future of the built environment is here

## Presenting the futurebuild districts...

Timber

Concrete

Offsite

Energy & HVAC

Infrastructure

Green & Blue  
Infrastructure

Building  
Performance

District Energy

The Infrastructure district,  
in partnership with the  
Institution of Civil Engineers  
is a unique opportunity for  
the built environment to  
come together and plan for  
the future.

This district will show how infrastructure; well  
designed, built, operated and maintained can  
transform people's lives – across the globe.  
It will bring to life the hidden infrastructure  
and bring together the people who make the  
modern world work.

**25,400**  
overall visitors

**4,800+**  
visitors attend specifically  
for infrastructure solutions

*\*including Civil Engineers, Local  
Authorities, Project Managers,  
Architects, Consultants and  
Procurement*

**1,100+**

**“***“Ecobuild is a strong, logical partner for exploring infrastructure issues with a well informed and engaged audience. ICE will build on its partnership with Ecobuild to debate the issues of the day in infrastructure with end users, asset owners, contractors and the supply chain to help the sector move forward.”***”**

Nathan Baker, Institution of Civil Engineers
