Scope
New build development of
seven luxury homes

Architect
Clague Architects

Developer
Vanquish Iconic Developments

Bricks
68mm Reclamation Yellow Stock
68mm Yellow Stock
68mm Georgian

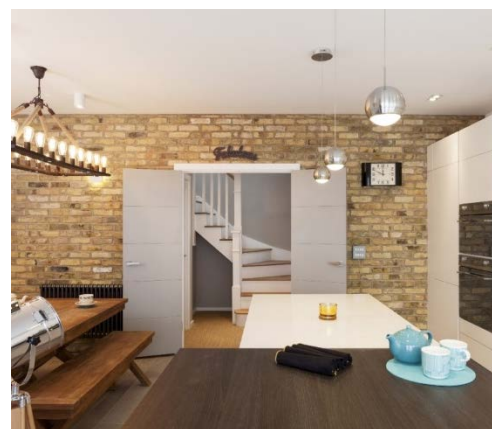

Moonlight Drive is an elegant development of Belgravia style mews properties finished to a very high specification, carefully designed to include both period charm as well as a modern luxury finish throughout.

Working directly with Mark Harris of Vanquish, and Clague Architects, Imperial Bricks supplied a custom blend of Reclamation Yellow and Yellow Stock bricks to add character to the development's exterior, finished with a decorative arch and band detail in Georgian Red. In addition, matching brick slips have been utilised to give the interior spaces a contemporary urban twist.

This development has been shortlisted for an LABC award.
