AGILA

Performance in doors

Expertly engineered we offer a variety of doors, guaranteed to complement your customers home or building. Choose either our sliding door, multi-fold door or our composite door and allow your customers to find the perfect choice.

REHAU AGILA sliding door

- Dual and triple track system for 2, 3, 4 and 6 pane options, opening from either left, right and even from the centre
- Maximum opening width of 5m and heights of up to 2.4m
- Easily achieves a Door Energy Rating of A with standard argon filled, double glazed units
- Can accommodate up to 36mm triple glazed units
- Mechanical joint option available for ease of transportation and onsite manoeuvrability
- Bespoke REHAU hardware package

REHAU multi-fold door

- Slim sightlines
- Up to seven opening sashes possible
- Dedicated thermally broken low threshold
- Dual compression seals for best possible weather performance
- Reversible track detail allows choice of opening inwards or outwards
- Fully compatible with the TOTAL70 range of ancillaries.

Colour

All our doors are available in a range of different colours providing a solution for every home.

**Excellent
thermal
properties**

REHAU composite door

- Suitable for 44mm door slabs
- Classic chamfered design to match TOTAL70c window system
- Integral gasket as standard
- Slimmer sightlines allows for use in narrower door openings
- Transom allows for top light glazing for more flexibility and choice
- Dedicated low threshold options from threshold suppliers for Part M Compliance
- Dual brushpile seal option for enhanced weather performance
