

Buildingtalk is the leading online resource for the latest news, product updates, and technical information for building professionals in the construction industry.

Since 2000, it has offered a range of in depth articles, blogs, features, and case studies. It is supported by its two sister publications, abc&d and Public Sector Building Magazines, and associated with FastrackCAD.

Growing new business through online advertising...

Whether you have a product to promote or a story to tell, Buildingtalk has a package that can help. Get listed on our extensive directory to promote your product and company news, reaching out to our readership of building professionals across the UK. Get in touch with our sales staff to create an entirely bespoke advertising solution that makes the most of Buildingtalk's digital expertise:

Product and project stories: Promote your latest products and services through SEO-friendly editorial, video material, and technical brochures and downloads.

Banner campaigns: Place promotional material in prime positions across Buildingtalk website and newsletters, to expose your brand to our users as they navigate.

E-newsletters and dedicated solus broadcasts: Feature in one of our industry-focused e-newsletters, or create a targeted campaign, distributed to our 100% requested subscriber database of 22,000.

Blogs: Written for building professionals, by building professionals. Contribute your own piece, or get involved with discussions and debates on the latest hot topics in the industry.

Dedicated solus broadcast

Who visits Buildingtalk?

With approximately 99% of specifiers doing their building product research online, Buildingtalk offers a high-visibility way to promote your portfolio, services, and brand to architects, builders, specifiers, and contractors across the industry.

Buildingtalk attracts thousands of unique visitors per month. Our readership consists of:

- | | | |
|-------------------------------|-----------------------|------------------|
| ■ Architects | ■ Allied Trades | ■ Engineers |
| ■ Specifiers | ■ Designers | ■ Private Sector |
| ■ Contractors | ■ Property Developers | ■ Public Sector |
