AS

THE MARKET LEADER IN THE ENERGY ASSESSMENT INDUSTRY

Stroma Certification is the name in assessor certification. We are an award-winning and approved assessor certification body, providing mobile and desktop software used by over 50% of the industry, and a range of training courses to support all schemes.

All schemes are authorised by the appropriate Government department: the Department for Communities and Local Government (DCLG) authorises our Energy Assessment and Code for Sustainable Homes certification schemes; all other schemes are authorised by the Department for Energy and Climate Change (DECC). Where relevant, our schemes also hold UKAS accreditation.

- Access our management software – Tracker
- Expand into the Private Rented Sector through Legionella and Inventory Certification
- Certify your QMS with ISO Certification
- Competitive membership and lodgement fees

INVENTORY CERTIFICATION

There's more to property assessment than energy assessment

Join a network of professionally certified inventory clerks and deliver accurate inventories to a professionally competent standard. Our Inventory Certification scheme is fully audited to promote the highest quality inventory assessments for Landlords and property owners in the Private Rented Sector.

Choose ABBE Certified training for new applicants or accreditation via APEL for experienced inventory clerks.

Tracker

Get the Property Management Module on desktop to hold all inventory data for each property in your portfolio.

Accreditation via APEL

Experienced candidates have their prior work and experience assessed via a submitted portfolio.

Tracker Mobile

Available on iPad and Android, the Inventory Module offers digital data collection for standard inventory records including Check in, Check out and Mid term.

Membership benefits

Technical support on phone and email from an expert team; pay per click insurance; logos and professional body recognition, a free members area website and much more.

ABBE Certified Training

New applicants join our Inventory Certification Scheme for free after completing this one-day training course.

LEGIONELLA CERTIFICATION

Remove the risk of legionella contamination

Landlords and Letting Agents have a responsibility to their tenants to protect against Legionella and Legionnaires disease in a property. Stroma Certification provides competent Legionella Risk Assessors to assist property owners in meeting their obligations via membership of our Legionella Certification scheme.

Members are accepted after completion of our Legionella Risk Awareness training or experienced candidates can apply for APEL accreditation.

Tracker

Our property management software allows you to securely store data collected during a Legionella Risk Assessment for each rental property.

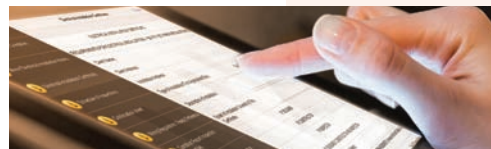

Accreditation via APEL

Experienced candidates have their prior work and experience assessed via a submitted portfolio.

Tracker Mobile

The Legionella Module in Tracker Mobile offers a digital version of your standard Legionella Risk Assessment form. Collect data on an iPad or Android device to properly assess the risk of legionella contamination.

Membership benefits

In addition to Tracker Software, members of our Legionella Certification scheme can get pay per click legionella insurance, regular CPD opportunities, a free members website and expert technical support from our customer support team.

HABC L2 Award in Legionella Awareness

New applicants can take a one day Legionella training course to receive a QCF accredited qualification in Legionella Awareness.

Become a certified Legionella Risk Assessor

1. Call 0845 621 11 11 or apply online via stroma.com/assessor-application.
2. Complete your one day training course for new applicants or portfolio assessment for APEL applicants.
3. New applicants then complete a site assessment. Site assessments can be scheduled at an independent Stroma premises or at your own location for an additional cost.

Once this process is complete, we will recommend you for certification. To maintain your certification our Audit Team will audit a percentage of your assessments each year to ensure quality and consistency.

ISO 9001 CERTIFICATION

The Quality in your Quality Management System

Stroma Certification is an approved provider of ISO 9001 Certification for Quality Management Systems. Choose certification from Stroma and certify your QMS against a recognised quality management standard.

Trust a Stroma auditor and apply today.

Multi-Scheme Membership

Discounts are available to companies who choose multiple certification strands with Stroma Certification. Apply for ISO 9001 Certification alongside another scheme and we'll certify you for both under the same assessment regime.

Level the playing field

Specifiers, contracts and bid processes in your sector want ISO 9001 certified companies. Put your business on a level footing with larger corporations with recognised certification against the ISO 9001 quality management standard.

Experts in Construction

Stroma Certification is an award-winning certification body providing schemes, software and training to energy assessors and installers for more than a decade. Our auditors are ideally placed to understand and support your business in achieving ISO 9001.

Quality, efficiency and credibility

Choose Stroma Certification and demonstrate to your customers that you have a credible quality management system. ISO 9001 helps your business to cut costs, increase efficiency and deliver improved customer value.

Transfer to Stroma today

Already certified to ISO 9001? Transfer to Stroma Certification and keep all your certifications under the same roof, plus enjoy the discounts available with multi-scheme membership.

ISO 9001 Certification is available from £795 based on the size of your organisation, number of staff and number of locations.

Call our team on 0845 621 11 11 (ext.603) or request a quote via stroma.com/iso-certification/9001

ISO 14001 CERTIFICATION

Protect the environment with your business

Stroma Certification runs an approved ISO 14001 Certification scheme for Environmental Management Systems. We'll support you in implementing the best practice methods and management systems to reduce your environmental impact and win more work.

Environmental management is vital. Trust Stroma and apply today.

Get a competitive edge

Public sector organisations, Government and customers are increasingly making environmental impact an evaluation criteria in tenders and bids. Stroma can help you implement an ISO 14001 compliant system to elevate your business above the competition.

Lower costs, increase revenue

An ISO 14001-certified Environmental Management System allows your business to reduce its cost base. Waste and resource efficiency can be more effectively managed to ensure an optimum usage in order to keep costs down.

Build your certification package

ISO 14001 can be taken alongside ISO 9001 or one of our many award-winning assessor certification schemes. By choosing a multi-scheme package you're entitled to membership discounts and an opportunity to gain certification under the same assessment regime.

A fully audited scheme

Our consultants are fully trained ISO 14001 auditors so you can rely on credibility, competence and quality with Stroma.

IMPROVING DATA FLOW THROUGHOUT YOUR BUSINESS

Tracker is our award-winning management software which can help your business with workflow integration and data transfer and security. It combines a powerful work allocation tool with Tracker Mobile's data collection apps to create a holistic software package, adaptable to major UK industries.

Work can be scheduled and allocated via the main Tracker system in your office. Information is sent directly to mobile devices in the field where Tracker Mobile helps remote operatives to collect data much more efficiently.

- Connect office and field based staff
- Collect data on mobile **without** an Internet Connection
- Transfer data securely between the field and back office
- Store data safely in an integrated management system
- Create management information reports

Start with Tracker's core functionality and choose from our Tracker Mobile apps to build a software package to suit your business

Tracker

Mobile Stroma Software®

MOBILE DATA COLLECTION

Tracker Mobile helps you collect mobile data faster and more efficiently on Apple and Android devices in the field. Our library of applications has been developed with you and your customers in mind. We've spoken to the people using the software and have delivered apps to make life easier for mobile workers.

Collect data safely, fulfil compliance requirements and leave cumbersome paperwork behind.

Use Tracker Mobile in the field and then **transfer your data securely in real time** to the Tracker system in your office

“I would just like to say that I have rarely seen such an impressive and effective combination of in-depth practical ability and clear theoretical knowledge - by any presenter on any subject.”

Mike Davies , Management Associates

“I just wanted to emphasise the usefulness and efficiency of this department and I will certainly be recommending Stroma within this industry.”

*Mark Leckey , Associate Director
CEA Lambert Smith Hampton*

“Your technical support is a breath of fresh air. Friendly, to the point, and pitched exactly right.

I am looking forward now to placing all my work with Stroma.”

Richard Pain, Farnsfield Consulting

“I was impressed with your intuitiveness and calm manner in which you conducted the class. Thanks to you, the class was very interesting and I was able to take away and retain quite a lot. Thank you once again for making my experience an enjoyable one.”

*Mark Millitello, Energy Officer,
Wakefield One, Wakefield Council*
